GIORDANY ORELLANA

iOS Developer

ABOUT

I am dedicated to learning and constant improvement. I strive for clean and maintainable code, taking pride in quality work. My goal is to grow as a developer by taking on challenging projects.

PROJECTS

Contract Manager

App that quickly generates a short-term lease that can be signed by tenant and landlord.

- Generates a 9 page PDF contract
- Allows to take or select pictures
- Uses Core Data to save all data
- Allows digital signatures
- Uses Coordinator-Pattern
- Complex page navigation

Arrival Buddy

App that uses Google Maps API to generate directions and alerts.

- Became familiar with Google Maps
- Generates accurate travel directions
- Generates alerts using Notifications

Fantasy Football App

Demo project to test 6 logged-in users interacting with a fantasy football draft.

- Google Firebase for login and data
- Complex button logic

Ultimate Movie Database

App that uses themoviedb.org API to get the latest films, and to save your favorites.

- Networking API with Codable
- Used TableViews and CollectionViews

Virtual Tourist

App that uses Flickr API to load local images depending on GPS coordinates.

- Became familiar with MapKit
- Interactive CollectionView

OnTheMap

App that allows MapKit to upload a map pin to Udacity servers, using network API.

- Became familiar with MapKit
- Interactive CollectionView

GIORDANY ORELLANA

iOS Developer

WORK HISTORY

2016 Project Manager / IntoMotion

Managed daily operations on iPad application development for Mercedes-Benz.

- Coordinated iOS testing on 200+ iPads
- Negotiated 6,200 NFC-Enabled LED bracelets with a Chinese supplier.

TECHNICAL SKILLS

SWIFT

I've studied Swift for the past 2 years, making a diverse set of projects, and getting very familiar with most APIs like UIKit, Foundation, and MapKit.

Python

Python helped me learn programming concepts and build dynamic projects like a web scrapper, a space invader game, and a cryptocurrency trader.

- Git
- MVC / MVVM
- CI / CD
- RESTful APIs
- Storyboard in Code
- Unit Tests
- Core Data
- Debugging
- Fastlane

EDUCATION

2019

App Academy Amsterdam

Advanced iOS course certificate
